

I'm going to be signing up for an email today as well!
You can type this into the search bar,
accounts.google.com/signup/, and follow along with
me! My name is Vicki.

Here is where you need to put
your name. It's important to use
your actual name and not a fake
one!

You can use letters, numbers & periods

[Use my current email address instead](#)

This is where you need to think of your email address!
Sometimes, your name will already be used by someone
else – so I've used VickiSmith1992, because that's the
year I was born!

Use 8 or more characters with a mix of letters, numbers &
symbols

This is where you need to think of a password.
Make sure it's only something that you and the
people that you trust will remember! I've chosen
Pepsi max, because it's my favourite drink, 1704
because I was born on the 17th of April and I
used an "!" to make sure it's a little safer!
